

REAJUL HASAN

AI-Powered Full-Stack & 3D Web Developer | Digital Growth & Data Specialist

Dhaka, Bangladesh | Phone/WhatsApp: [+8801400016634](tel:+8801400016634) / [+8801301247256](tel:+8801301247256) | Email: reaj.hasan786@gmail.com

Portfolio: reajulhasan.netlify.app | LinkedIn: linkedin.com/in/reajulhasan-930355167 | Fiverr: fiverr.com/reajulhasan

PROFESSIONAL SUMMARY

Full-Stack 3D Web Developer & Solution Architect with expertise spanning modern software engineering (MERN Stack, React Three Fiber, WebGL), AI systems integration, remote growth marketing, and field data analytics. Proven track record of engineering zero-code 3D WebGL SaaS builders, commercial restaurant operating systems, and automated web platforms with embedded OpenAI API engines. Leverages a strong Computer Science foundation, EF SET C1 Advanced English proficiency, and extensive field survey experience including household data entry and KoboToolbox mobile questionnaire design to deliver scalable digital solutions and quantitative data accuracy.

TECHNICAL & CORE COMPETENCIES

- **AI & Automated Web Development:** AI-Assisted App Architecture (Frontend & Backend), OpenAI API Systems Integration, Prompt Engineering, Generative AI Image Asset Creation, Automated Resource Collection & Web Harvesting, Python Automation.
- **Full-Stack & 3D Web Development:** React.js, Vite, Next.js, React Three Fiber (@react-three/fiber), Three.js, WebGL, Node.js, Express.js, MongoDB, Supabase (Postgres & Storage Buckets), Firebase, REST APIs, Tailwind CSS, Framer Motion, Bootstrap 5, JavaScript (ES6+), TypeScript, Vercel, Netlify.
- **Remote Digital Marketing & Media:** Multi-Channel Campaign Strategy, Search Engine Optimization (SEO), Google Analytics 4 (GA4), Social Media Growth (LinkedIn, FB, YouTube, X), Mailchimp Email Automation, Video Production & Editing (Adobe Premiere Pro, CapCut, Canva).
- **Field Survey & Data Analytics:** KoboToolbox (Form Architecture, Mobile Survey Deployment, Field Data Ingestion), Data Cleaning & Quality Control, Database Management, Quantitative Processing & Visualization, MS Office Suite.

PERSONAL TACTICS & PROFESSIONAL ATTRIBUTES

- **Asynchronous Remote Operations:** Proven ability to operate self-directedly across international time zones with clear documentation, proactive progress reporting, and reliable milestone delivery.
- **AI-Augmented Productivity:** Leverages state-of-the-art AI tools for rapid prototyping, automated code generation, smart asset creation, and accelerated resource collection.
- **Analytical Problem-Solving:** Combines computer science principles with practical field research insights to engineer efficient, data-backed technical solutions.
- **Agile & Rapid Learning:** Quickly adapts to novel technology stacks, modern frameworks, and shifting project mandates to deliver high-quality commercial results.

FEATURED WEB DEVELOPMENT DEMO PROJECTS

Project 1: Stomak Solution – Smart Restaurant Operating System

Live Demo: stomak-app.vercel.app | **Tech Stack:** React.js (Vite), Tailwind CSS, Framer Motion, Firebase / Local Storage

- Architected an end-to-end commercial management system unifying online order dispatching, POS billing, table/event booking, live kitchen tracking, and customer CRM modules.
- Engineered a dark glassmorphic UI featuring an instant admin control panel that enables real-time branding, video background updates, and client configuration adjustments without code modification.
- Reduced system latency to near-zero by designing a client-side data persistence architecture utilizing browser storage.

Project 2: 3D Universe – Zero-Code 3D Web Ecosystem (SaaS Platform)

Live Demo: 3duniverse04.vercel.app | *Tech Stack: MERN Stack, React Three Fiber, Three.js, Spline, Tailwind CSS, Supabase, Vercel, OpenAI API*

- Engineered a zero-code SaaS 3D web platform that transforms static business metrics into interactive, real-time 3D WebGL landing page environments.
- Built a 4-phase, 11-step creation engine paired with a tri-tier architecture (Owner CMS, Client Builder, Public Landing View).
- Integrated 15 pre-engineered AAA 3D environmental loops (Cyber Neon, Command Center, Crystal Vault) alongside OpenAI API copywriting tools to automate asset generation.

Project 3: My 3D Portfolio – Interactive 3D Portfolio Showcase

Live Demo: my3dportfolio00.vercel.app (Admin: [admin panel](#) | Password: admin123) | *Tech Stack: React.js, React Three Fiber, Three.js, Tailwind CSS, Framer Motion, MERN Stack*

- Built a dynamic 3D portfolio engine fusing fluid camera physics, micro-bounce interactions, and reactive mouse-tracking effects.
- Incorporated total administrative control, allowing real-time content updates, project additions, and text synchronization without touching code.

Project 4: Interactive 2D Web Showcase & Client Portfolio Collection

Featured Client Demo: alomgirhossain.netlify.app

Featured Client Demo: labonnosultana.netlify.app

Featured Client Demo: dinaakter04.netlify.app

Featured Client Demo: asmmoniruzzaman.netlify.app

Featured Client Demo: nushratnishat.netlify.app

- Designed and deployed a responsive portfolio web suite for professional clients (including labonnosultana.netlify.app, dinaakter04.netlify.app, asmmoniruzzaman.netlify.app, and nushratnishat.netlify.app).
- Achieved 100% cross-device compatibility, modern UI layout standards, and optimized Google PageSpeed performance across all deployed client sites.

PROFESSIONAL WORK EXPERIENCE

-

- Conducted Key Informant Interviews (KII) and collected audio/video outcome stories, producing clean datasets and draft reports with visual infographics.

Field Data Enumerator & Humanitarian Monitor — Helios Consultancy & World Vision Bangladesh [2018 – 2022]

- Helios Consultancy (06/2022 – 12/2022): Conducted Android-based household surveys using KoboToolbox across 5 districts, meeting daily operation quotas. **Digital Marketing Officer & Video Editor (Remote) — Digital MEL Hub | Bangladesh [03/2023 – Present]**
- Spearheaded multi-channel digital campaign strategies promoting webinars, online courses, eBooks, and consultancy services for international Monitoring & Evaluation (M&E) professionals.
- Produced and edited 80+ short-form and long-form video assets using Adobe Premiere Pro, CapCut, and Canva, driving higher engagement rates across YouTube, LinkedIn, and Facebook.
- Executed on-page SEO optimizations, website updates, and GA4 event tracking, improving search visibility and lead conversion rates.
- Managed targeted email marketing automation via Mailchimp, designing promotional workflows for segmented subscriber databases.

Data Enumerator — Manuser Jonno Foundation (MJF) | Kishorganj, Sunamganj & Patuakhali, Bangladesh [11/2024 – 12/2024]

- Executed door-to-door household surveys using KoboToolbox mobile applications across 3 coastal districts, achieving a 98% data accuracy rate.
- Prepared structured observation reports, cleaned raw field datasets, and maintained strict data integrity logs for research management.

Data Enumerator — Bhumijo | Dhaka & Narayanganj, Bangladesh [07/2023]

- Administered Android-based mobile field surveys via KoboToolbox across 15+ urban research projects.
- World Vision Bangladesh (06/2018 – 06/2019): Executed field monitoring for humanitarian projects, conducting household visits, KIIs, and Focus Group Discussions (FGD).

EDUCATION & CREDENTIALS

- **Bachelor of Science (B.Sc.) in Computer Science & Engineering (CSE)** — International University of Business Agriculture and Technology (IUBAT) (01/2022 – 12/2026 *(Expected)*)
- **Higher Secondary Certificate (HSC) – Science** — Milestone College | GPA: 5.00 / 5.00 (2018 – 2020)
- **Secondary School Certificate (SSC) – Science** — Milestone School and College | GPA: 5.00 / 5.00 (2017 – 2018)

LANGUAGES & CERTIFICATIONS

- **EF SET English Certificate:** Certified C1 Advanced (Score: 64/100; Reading: C2 Proficient, Listening: C1 Advanced). Official proof of high-level English fluency in reading, writing, and professional communication.
- **Languages:** Bengali (Native), English (Full Professional Proficiency / C1 Advanced).

DECLARATION

I declare that the information provided in this resume is an authentic, accurate, and truthful account of my academic background, professional work history, technical projects, and certifications. I stand fully behind the integrity of my experience and am prepared to present supporting documentation, live project demonstrations, and verifiable source code repositories upon request.
